Working
experiences

Team manager and co-founder at BindingFuture Srl [✉](#)
(Since September 2019)

Software engineer freelance
(Since February 2017 to September 2019)

Software consultancy, starting from the analysis of the need through the development and test of the final product. Software development client (desktop, web application, websites) and server side (cloud Azure, MS SQLServer).

Software engineer at PRB Srl (Milan)
(Since June 2014 to February 2017)

I was in charge of designing and implementing custom integrations for our customers. During my job I constantly deal with technical and top management employee. Analysis and development activities were often done directly at company's site

Microsoft 70-480 - MS: Programming in HTML5 with JavaScript and CSS3

Oracle Certified Associate, Java SE 7 Programmer

**Master's degree – Computer engineering, Services branch
(October 2011 – April 2014)**

University of Pavia, Pavia

Thesis title: Network intelligence with Google App Engine

Degree mark: 106/110

**Bachelor degree – Computer engineering
(September 2007 – July 2011)**

University of Pavia, Pavia

Thesis title: Experimental validation of a calibration technique for the Seat Tube Angle (STA) of a racing bike.

Degree mark: 91/110

**Scientific high school diploma
(September 2002 – June 2007)**

Scientific high school Ugo Foscolo, Broni (PV)

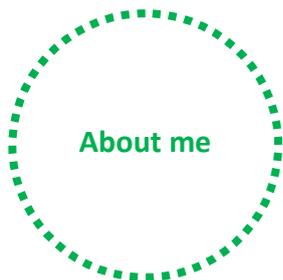

During my experience in PRB I acquired a good **self organization** and good **planning skills**, needed to **independently** handle various projects for several customers.

I also improved my skills in the **team activities' coordination**, which I gathered during several projects developed in my degree courses.

I own a good **team spirit** and ability to adapt to **multicultural environments**. I never encountered communication or interaction problems, neither during the development of projects with my classmate from the Far and Middle East, or in my experiences in team sports.

I'm available for business trips for the analysis and development of software projects.

Working experience at Tavola Amica – Pizzeria & restaurant (Castel San Giovanni - PC) as waiter, barman and other generic tasks (years: 2004 - 2005 - 2006 - 2008).

I provided some **private lessons** to high school students about programming and informatics' fundamentals.

I extremely love sports and i played basketball at a competitive level for over twenty years. I changed three teams and won a championship. I achieved the second level of the **FIP coaching license**. Currently I coach a senior team in a minor championship.

I love **music** (from Muse by up to Ludovico Einaudi, via Cesare Cremonini) and art in general, especially painting (Van Gogh, Monet and Dali).

I am very fascinated by the **culinary culture** of different countries in the world.
